4000mts of the Alps

Description

Ascending a 4000 mts mountain is a target for many hikers.

Completing the ascent of the whole 82 4000mts peaks of the Alps is a dream of a more exclusive entourage of hikers.

Both the categories found here their sweet spot on the web to gather informations.

Breithorn, Punta Giordani, Pyramide Vincent, Balmenhorn are -to name a few- simple

mountains at the reach of hikers used to spend the day in the mountain and cover about a thousand of meters of difference in altitude. Some are reachable within the day, other require a night at the lodge and we might even be able to hike two peaks a day.

Castore, Polluce, Mont Blanc du Tacul, Pizzo Bernina are some ideas for whom with a little extra experience, want to cope with some extra technical challenges.

The world of the 4000mts peaks of the Vallese with its difficult ascent itineraries and the world of the Oberland- Bern are all awaiting our passage.

What are you waiting for? We are here to answer your questions, doubts and sail off together for a new experience!!!
