Eolie Islands Hiking

Description

Eolie always represent a destination, for a couple of days or to spend a lifetime. Around 4000 mts ago the first populations settled there thanks to the fertility of the land and to a unique climate.

This trip will allow us to discover the major islands of the Eolian Arch, focusing on the naturalistic/ geological/ historic aspect: enjoyig the sea between one destination and the next one.

Base camp in Lipari, we'll move to Vulcano and Lipari and on the third day we'll sail off to

Salina. Two nights on this magnificent island and a small travel with a stop to Panarea will land us in Stromboli.

On the penultimate day, in the late afternoon, we'll hike the most challenging ascent - little more than 900 mts of difference in level- to the top of Iddu. We'll then stay on its summit for the sunset. The sunset, the sea, the wind and some spectacular eruption will gift us some good picture for our memories.

Eolie Islands Hiking

A trip to the Eolian Archipelago between story, sea, beautiful walks and grand finale on one of the most spectacular active volcanos of the world: Stromboli.

Level:

Excursionistic or basic hiker
