Gran Paradiso Park Hiking

Description

Ceresole Reale is known as holiday location amongst the mountains of Gran Paradiso since 1800. Even nowadays you can hike dozens of paths climbing up from its lake between woods of larches and fir trees, reaching hills, alpine lakes and mountain tops from where to enjoy the magnificent contrast between the green valley and the white of the glaciers.

Every morning we'll leave the village nestled upon the lake shore at our shoulders and, hiking through paths and mule tracks with our backpacks and we'll discover that the destination of the day is not only the final point but the travel in itself, with its glimpses, animals, the smell of the woods and of alpine meadows.

Climbing up a few hundreds meters we'll be able to enjoy magnificent views and, away from the beaten paths, discover a wild and pristine dimension.

Finally, with a night in an alpine lodge, we'll end our travel with the discovery of one of the

most beautiful valleys of the western alpine arch.
