Climbing Course on Multi Pitch

Description

This climbing long ways course has the goal to help you live your vertical adventures in security beyond the mono pull of the cliff.

If in the rock climbing course is focused on the climbing technique and on basic manoeuvres, in the long ways climbing course we mainly focus on all the manoeuvres that characterize the ascent of a big -already equipped- wall.

The course, held by an UIAGM Alpine Guide, is two days long:

1. The first day will be held in a cliff and distinguished from the study of all the manoeuvres, for example the double rope.
2. During the second day we will put everything in practice climbing a multi pitch where participants will need to handle autonomously their own roped party.

***Minimum number**

Course starts with minimum 2 participants.

Climbing Course on Multi Pitch

A step further away in the world of climbing.

No more single pitch but sport itineraries on which to engage, pitch after pitch, to the top.

Level:

Climbing experience as rope leader
