Freeride, not only downhill

Description

Thanks to the ski lifts we will reach the heights to choose our itinerary from there.

Putting sealcoats on immediately or hiking first, we might walk down a slope to reach the Hercules columns of the New World.

Valle Perduta, canale Giachetti, Vallone di Verra, Canale Berny, Col Perrin; Monte Rosa massif.

Col d'Entreves, Tour delle Periades, Arp Vieille, Brenva Glacier; Monte Bianco massif.

Those are only few of the examples of what we can do: there are hundreds of possibilities and ideas!

Off the beaten path itineraries with few signs and beautiful snow.
One more possibility to enjoy the freeride and the wide spaces of the Alps.

Specific equipment:

Ski Equipment to climb go up, Artva, shovel, probe, harness. Security material can be provided by the organization.

Freeride, not only downhill
