Advanced Ski Mountaineering Course

Description

The advanced ski mountaineering course is articulated in 3 days and offers to whom already have basic concepts for excursionistic ski excursions, to learn new technical knowledge with the goal to give fundamentals to autonomously move on alpinistic easy/ steep terrain using alpinistic materials such as rope, anchorage equipment, crampons and ice axe.

We'll dive into the following topics:

- Snow science and Avalanche research (advanced)
- Glacier harnessing and manoeuvres of self rescue

- Progression in preserves basic level
- Anchorages on snow, ice and rock
- Evaluation and planification
- Ascent technique (advanced level)

***Minimum number**

Course starts with minimum 4 participants.

Advanced Ski Mountaineering Course

Steep or alpinistic terrain?

We'll work together to amp up our technical awareness, widening our horizons.

Thanks to some basic concepts we'll learn to handle easy alpinistic terrains with the maximum possible security.

Level:

Good skier
